**TRAMAC CORPORATION INTRODUCES NEW
MUSCLE MATE® BRAND OF ATTACHMENTS**

Tramac Corporation, headquartered in Landing, NJ, announces its new line of Muscle Mate® attachments. Muscle Mate attachments feature durable construction, reliability and innovative design. Products include rotating grapples, universal processors, pulverizers and mobile shears.

Tramac Corporation continues to market Rockbreaker Boom Systems for the aggregate and mining industries. Several new Rockbreaker Boom models have been introduced and two additional series will be available by the fourth quarter. Rockbreaker systems mounted at a crusher can accommodate hammers ranging from 750 ft. lb. to 12,000 ft. lb. class.

Tramac Corporation's U.S. operations are headed by Nelson Ealey and Gary Hesseltine. Both have been Tramac executives for a number of years. This continuity of personnel and experience during Tramac Corporation's recent reorganization has provided dealers and end users with a significant level of security and uninterrupted support. Denis Bataille remains the owner of the company, which continues to operate subsidiaries in Canada and Belgium.

Tramac is a pioneer in the attachment industry, having been in business since 1966. Inquiries can be directed to Tramac at 800 526-3837 or www.muscle-mate.com.
